

GREEN, CLEAN DISINFECTANT BY US GAS!

Established in 1993, US Gas is the premier supplier of Medical and Industrial Gases in the Chicagoland area and is now expanding into our own line of *Green, Clean Disinfectant* products. We have partnered with a leading manufacturer of disinfectants in order to supply your company with the world's highest quality disinfectant. Not only does it KILL everything from **COVID-19** to Salmonella to HIV-1-AIDS, its pristine ingredients are supremely 100% **GREEN**. Our professional customer service and distribution team will meet all your particular needs. Our Green, Clean Disinfectant product line consists of the following benefits:

- It's a powerful, fast, and effective *infectious disease* disinfectant.
- NO PPE NECESSARY / NO NOXIOUS FUMES / NO RINSING
- Easy to use & simple to apply without producing any hazardous byproduct or residue.
- It can be safely used on all hard, non-porous, or porous surfaces. Great on floors.
- Once applied, let it kill for two minutes, let it dry or wipe it off - your choice.
- Meets bloodborne pathogen standards for HBV and HIV.
- Delivery geography unlimited / No minimum on quantities ordered.
- 1 pre-mixed Gallon = ~ 5,000 sq. ft. of coverage, no mixing or diluting required.
